Passionate frontend developer specializing in clean, efficient code and engaging animations to enhance user experience. Always eager to learn and adapt to new technologies, with a focus on delivering high-quality, responsive, and visually appealing web applications in collaborative environments.

EDUCATION

B.Tech. in Electronics and communications | Punjab Engineering College

June 2023 – GPA: 7.13

12th Grade | SGGGS Collegiate Public School, Chandigarh

March 2019 – Score: 76.4

SKILLS

Programming Languages: C++ | JavaScript (ES6+) | TypeScript

Frontend Development: React.js | Next.js | HTML5 | CSS3 | Redux | Context API | Tailwind CSS | Material-UI

Backend Development: Node.js | Express.js | RESTful APIs | Authentication (JWT | OAuth)

Database Management: MongoDB | Mongoose

Version Control and CI/CD: Git | GitHub | Vercel | Netlify | Docker

Other Skills: Payment Gateway Integration (Razorpay | Stripe) | Agile Methodologies (JIRA) | Object-Oriented Programming (OOPs) | Data structures and Algorithms

EXPERIENCE

Fullstack Developer | XEAM Ventures | Mohali, India

July 2023 – Present

- Contributed to the official website of XEAM Ventures by adding animations, enhancing code clarity, and ensuring maintainability built on Nextjs Tailwind CSS.
- Updated the Herman-Padel project, built with TypeScript and Next.js, by developing a fully functional booking system for both frontend and backend using Stripe payment gateway, enabling users to select slots across available courts.
- Led the development of the VisualEZ project using React.js, tailwind CSS and Vite, where I designed the UI and integrated Google Drive uploading and Google Sheets API functionalities.
- Collaborated closely with team members to deliver high-quality products within deadlines, maintaining minimal errors and clean code.

PROJECTS

Book My Show clone - ReactJs | Nodejs | Express.js | MongoDB | TMDB database | Vite

It is a replica of the popular online ticket booking platform. User authentication and authorization implemented. Razorpay integration included.

Booky – NodeJs | ExpressJs | MongoDB | ReactJs | JWT

This program is designed to assist school libraries in managing and handling books efficiently. The project leverages APIs to integrate external book-related services, enhancing the book discovery experience for users.

Tasky (TODO manager) – HTML | CSS | Javascript

It is a simple yet powerful application for managing tasks and to-do lists. It provides an intuitive user interface to create, update, and track tasks, helping users stay organized and focused on their priorities.

ACHIEVEMENTS

NSS Club Volunteer: Dedicated to teaching underprivileged children and promoting child welfare through initiatives like the Bachpan program, raising awareness on combating child sexual assault.

Pulse Polio Drive Volunteer: Contributed to public health campaigns in Chandigarh, ensuring effective execution of the initiative.

Art and Photography Club Member: Organized and participated in art and photography competitions, fostering creativity and event management skills.
